My full review and gameplay footage can be found here; <http://mousenjoypad.com/reviews/pc/dinocide-review/#comment-32665>

Dinocide, put simply, is not very good. Not only does it lack the challenge of the game it's trying to be, but it doesn't even feel like they even tried to make a memorable game. Dinocide lacks boss battles, interesting level design or even the challenge of losing the game due to your character having infinite lives. The gameplay feels as stiff as the animations look, and everything just feels like an Alpha build that never got to see the light of a beta before being pushed out onto a shelf. There was some real possibilities here to recapture the energy and excitement of a classic series- but sadly Dinocide doesn't capture any of the charm of its inspiration.. Does what it says on the tin.

Rifter is certainly interesting. This is a rather unique and really solid precision platformer with tight controls and satisfying gameplay. You'll swing and dash your way through enemies and levels while jamming to a solid set of tracks. It is tough, but in a way that is uber satisfying when you get that smooth run down. Combat is extremely satisfying and can be made as fancy or simple as you choose.

I would be remiss if I did not mention the characters. Tiny, your companion, and Zip, the challenge giver, are awesome. They really bring the smiles amidst some of your frustration. This is a speedrunning platformer, so story/characters may not be that important, but to me, those two really give a lot of personality to this title.

If the trailers look interesting to you, I'd recommend giving it a try for yourself. What videos cannot portray is the actual *feeling* of swinging through the levels and arena combat areas, and how good it feels to get a smooth pass on a level you've been having trouble with.

Highly recommend.. WTF my pc can run Gta V, Apex Legends, PUBG and Crew 3 smoothly and can't run this piece of ♥♥♥♥♥♥ while i was playing this game my pc was burning no ♥♥♥♥♥ing joke if you have a bad computer never buy it if your computer is at normal specs buy it might lag but worth it i only could finish the first chapter but you can tell that this is a good game the music is so good like jazzy music while you are slaughtering people just amazing. Great game to play with friends. Much fun, much intensity, yes.. You like Space with Pirates?

You like Flying air/star ships based off of the old sail boats of our time?

Enjoyed the movie Treasure Planet?

Then this game is worth playing; Continuing on from where the original treasure planet left off. Jim becoming an officer of the Royal Navy as the game expands a little more on their world from the lore behind who made the map ball and treasure planet to some of the factions aside from the Royal Navy and Pirates. The game is easy to pick up and play for any age to try and give a

shot.

SOME of the problems you'll have, if your playing this on a new machine; There is no starry backdrop to represent the ethereal ocean. I own the original CD and played this game when it first released and I know it was in there. Also, Disney's Online multiplayer support is long gone; thus if you want to play multiplayer, you'll need to run LAN games and start tunneling LAN; which even the tunneling is more difficult than it sounds, especially with this old game.

The choice of Voice Actors to represent the crew from the movie, I will not say were the best picks; nor is some of Jim's Portrait art when issuing commands.

Despit all of the problems, it's worth the \$10 and worth picking up if you want to go all sapce pirate.. 100% recommended, good music, beautiful visually and I love its lowpoly style, it's a game that is worth buying. I'm enjoying it very much.. Yeah this was actually good.I got every reference and would buy the sequel

V แล้วชอบมาก จับเลยภาคนี้ไม่เสียใจ ดูเวลาการเล่นของ ผม ไม่ต้องอธิบายเยอะไว้เล่นว่างๆ ทุกวันนี้ก็ยังเล่นกับบอท ภาคนี้เล่นกับบอท สนุกสุดของทุกภาคละ

Good

11/26/2018 ทุกวันนี้ผมก็ยังเล่นอยู่ 10/10 ไปเลย จริงมีข้อเสียอยู่อย่างจากภาคต้น แต่ไม่ใช่ปัญหาใหญ่เสียงแค่อย่างเดียวเสียงเอฟเฟ็ก บางฉากมันหลุดๆหายๆไม่ตรงกับนิเมชั่นตัวละครเวลาออกท่าทาง เหมือน ภาค Heroes of Might & Magic V ตัวหลัก แต่ โดยรวม เล่น Heroes of Might & Magic V: Tribes of the East นี้แหละ เวิร์กสุดละ สนุกสุดสมจุด สุด รักเลยเกมนี้. Pretty good game!

Irony of Nightmare is as you probably know a horror game. And its actually pretty scary sometimes. But the best part about this game is the true ending. I am not going to spoil anything, but when I first played this game, I thought it would be another of those games where you are locked in a house and a killer is trying to kill you. NO! It will get a little glitchy... he.

The worst part of the game is, that some of the jumpscare are just clones and I think they got way to overused. It kinda ruins the atmosphere when something happens in EVERY ROOM!

In the end, I think its pretty good. Its also really cheap so get it now if you want.

7/10 Points!

The killer looks like an enemy from Left for Dead 2 change my mind. A decent hidden object game, although some of the solutions are obtuse, and there is one achievement that is annoying to unlock. If you love HO games and you can get it on the cheap, check it out.. Gave me diabetes.. You play as a frog

You fire balls at other balls

You make balls attract of the same color

This game talks about homosexuality AND racial issues?

Holy moly guacamole, that's **DEEP**. Love the idea of the game. However you cant start over. I have come to a place where I cannot progress due to a bad choice and the rewind option only allows me to start the encounter over where again I cannot progress the story. I want to like this but this is a very BAD game design.. This game is literally my childhood. This is going to be my first review, yay^^

I found "Fallen: A2P Protocol" on the store when it was still Early Access. I liked the idea of X-Com-like gameplay combined with a post-apocalyptic scenario. Defending humanity from invading aliens isn't my cup of tea, post-apocalypse, on the other side, is more to my liking. I waited until release, so I could play the entire campaign.

"Fallen: A2P Protocol" did have a rough start, though. It had plenty of bugs, even game-breaking ones. But - and this is a major positive for me - the devs really listen to the community. The constantly work on fixes and deliver them quickly. So as for now, the game experience has been greatly improved, and I can recommend it. The story ends in a cliffhanger, though, so I wonder if the devs are planning on releasing additional content or possible sequels.
